Exhibitions

Maitland City Art Gallery has a range of exhibition programs which promote the visual arts in the region.

The Gallery brings to Maitland some of the best exhibitions from around Australia and it also provides exhibition and curatorial opportunities for locally based artists. Community groups are especially encouraged to participate.

The Gallery hosts the region's only sustained program of 3D art, with new works exhibited every 5 weeks. Maitland City Art Gallery also boasts a very strong program for young and emerging artists and the Gallery is proud that many important Australian artists have had their first exhibition there.
